

Debra Noronha
Hamilton Regional Chair

Debra's career background stems from an interest in science and technology. She is a Medical Laboratory Technologist, and began her career in various healthcare settings. Early in her career she had the pleasure of working abroad in the Middle East at a prestigious hospital in Saudi Arabia. This afforded her the chance to travel and view this vast global world, with great appreciation of how fortunate we are in Canada. Upon return to Canada, she went into sales and marketing for various diagnostic companies. Currently she works for a medical device company and cover most of Canada.

Her CWL journey began 11 years ago when she became an active member. Since then, she has been most honored to be involved in several roles, including that of the President of CWL St. Andrew Parish in Oakville for the last four years. Her family has been most supportive in her work with the CWL. This along with her husband's commitment to the Knights of Columbus, it keeps their family very busy in many works of charity, faith and parish activities.

This role has provided a wealth of knowledge and has allowed her to grow more deeply in her faith and convictions to work with those less fortunate, and to live and act on the mission of the CWL.

With the new appointment as the Hamilton Regional Chair, it is her hope and goal, to further unite our Hamilton Councils, in their daily endeavors of good works, deepened faith and commitment to the CWL.

With patience as her guide, she hopes to be a good listener and voice for the councils with the Diocesan officers, as we work together to strengthen our bonds, and work on important directives for all.

She hopes to learn from my sisters in the League, and share ideas that will benefit all. She is looking forward to using the guidance of Diocesan officers, to fulfill her role to the best of her ability.
